

Door Styles & Finishes

# Custom cabinets designed for life.

Our sophisticated products are domestically produced at our modern manufacturing facility to deliver high-quality kitchens finished faster. We innovate through our processes by sourcing superior raw materials, continuously developing new products, and investing in state-of-the-art technologies and machinery. Our variety of door styles and finishes will complement any design style. From traditional to modern, to farmhouse and industrial — our kitchens are designed for life.

# Shift

Shift woodgrain finishes offer a dynamic appeal, blending texture, color, and pattern for a versatile and timeless look. These finishes transcend various design styles and trends, thanks to our wide range of finishes and door styles. Whether you prefer a vertical or horizontal grain direction, our cabinets are expertly crafted to ensure consistency in color, surface, and core quality. The Shift Series is currently offered in 19 color options and two textures: HD and Moraine.

# Reflection

Make a statement with our high-gloss series that blends the best of luxury and durability. The sleek style creates an elegant feel that captures modern European design perfectly. It's also the most scratch-resistant acrylic available and has a remarkable stain and chemical resistance so your kitchen will look great for years to come. The eye-catching surface is currently available in 22 color finishes.

# Optimat

Smooth to the touch, our matte series creates a stunning look and feel that adds a level of sophistication to any kitchen aesthetic. The anti-fingerprint acrylic absorbs light while being highly scratch and chemical resistant so the chic surface will look good well into the future. Optimat is currently available in 15 color finishes.
